

Subject: NEW CORPORATE ORGANIZATION OF TECNOMASTER GROUP

Dear Customer,

I am pleased to inform you about the new corporate structure of Tecnomaster Group, expanded and strengthened after the recent acquisitions, that will support us to face the new challenges of the market.

Since July 1, 2013 Tecnomaster Group will be operational as an Holding with a share capital of 7 million Euros. The holding company will lead the operating subsidiaries **Tecnomaster SpA** (Italy), **SOS Electronic Engineering SaS** (France), **LPP GmbH** (Germany) and **Tecnomaster International Ltd** (Far East).

This organization change will allow us to address effectively the future goals, maximizing the synergies of the Group to be more competitive, to ensure a greater pressure on the market and to oversee strategic areas.

Tecnomaster Group is the first Italian group able to closely supervise three strategic European markets (Italy, France and Germany). After the strong acceleration of investments, which has led to excellent results with the acquisition of the French company SOS Electronic Engineering in 2009 and the German LPP -single European source of Sony - at the end of 2012, the Board of Directors has launched the new setup which gives a further boost to growth and strength of the group. Quite in contrast to the contraction of other PCB companies in Europe.

Today more than yesterday our company is a reliable partner offering a complete technology solution (rigid, flexible and rigid-flexible materials): we work according a one-stop-shop philosophy and guarantee integrated, customized solutions with quick service, with constant focus to quality and customer's needs.

We inform you that since July 1st 2013 business and operations will be transferred to the new Tecnomaster SpA:

Tecnomaster SpA

Via Alessandro Volta 1

33050 Pavia di Udine (UD) - Italy

VAT nr and Chamber of Commerce Registration in Udine **01860210309**

Bank references and IBAN code will not change.

We kindly ask you to update our data in your ERP system. I am confident that the new organization will strengthen our partnership and hit new successes together.

Yours sincerely

Arduino Pattaro
President & CEO
Tecnomaster Group
